MEMORANDUM FOR : Chief, Research & Development Branch, DFD-DD/P
SUBJECT : CONOMA - Correspondence Distribution

1. As you are aware, there has been a considerable increase in the volume of CONOMA cable and correspondence traffic in recent months.
2. In view of this increase and because of the many problems inherent in the program, it is recommended that Mr. James Cunningham and the Administrative staff be included on the distribution of all such CONOMA traffic.
3. I feel this would enable them to monitor the program and afford them the opportunity of having a better understanding of the Project and a better appreciation of our problems.
